Easy & Practical Home Dress Making Lessons

Prepared Especially For This Newspaper
by Pictorial Review

ATTRACTIVE FOR SMALL GIRLS.

yoke of the same material, the sleeves being cut into one with the yoke. Belt, collar and cuffs are of the plaid, and the neck may be finished in either high or low effect.

To make the dress requires:
2 1/2 yards 28-inch material at 25c. yard \$0.63
3/4 yard plaid for trimming at 40c. yard .30
\$0.93

Since the vest is an adjustable affair, this may be transferred from dress to dress.

When 26-inch material is used, it can be folded to splendid advantage in cutting out the dress. The skirt being a straight flounce, it can be arranged about 2 inches from the edge of the eponge, on the fold. The piecing follows next, being laid a little further toward the open edges. The back and sleeve (in one piece) is laid on a fold of the goods. The round collar, cuff, piecing for back and sleeve and front are all arranged on a lengthwise thread of the material.

Now, to make the dress, first gather the upper and lower edges of front and lower edge of back between double "TT" perforations. Sew upper edge of front to back and sleeve section, notches and center-fronts even; large "O" perforations indicate center-front. Close under-arm and sleeve seams as notched. Adjust stay to position underneath gathers at lower edge of waist, centers even (large "O" perforation indicates center-front). Small "o" perforation at under-arm seam. Close back seam of round collar (indicated by small "o" perforation), sew to neck edge as notched. Sew standing collar to shield as notched. Close cuff seam as notched, sew to lower edge of long sleeve as notched.

For the skirt, turn hem at lower edge on double "oo" perforations. Pleat, creasing on slot perforations, bring folded edge to line of small "o" perforations and press. Gather upper edge between double "TT" perforations. Lap right front gore on left, centers even (double "oo" perforation indicates center-front); stitch to position, leaving free above large "O" perforations for opening. Sew to lower edge of waist, centers even, bringing line of single small "o" perforations to under-arm seam.

No. 5534. Sizes 4, 6, 8, 10, 12 and 14 years. Price of pattern, 15 cents.

BE OPTIMISTIC SAYS A WRITER

Gloomy Persons Attract Gloomy Things and Success Comes to Optimist, He Says.

In the May Woman's Home Companion Ralph Waldo Trine, writing an article entitled "The Pleasures We Take Captive," says that the cheerful habit of mind is one of the most potent factors in materializing success. As is our kind of thought so is our kind of life. The following extra from the article elaborates the point:

"It would be hard to find a single paragraph anywhere that contains a more luminous and indisputable truth than the following by Prentice Mulford: 'People ruled by the mood of gloom attract to them gloomy things. The hopeful, confident and cheerful attract the elements of success.'"

Clothes Show Thought.
A man's front or back yard will advertise that man's ruling mood in the way it is kept. A woman in her dress. A slattern advertises the ruling mood of hopelessness, carelessness, and lack of system. Rags, tatters and dirt are always in the mind before being on the body. The thought that is most put out brings thought that is most put out. The element to crystallize about you as surely and literally as the visible bit of copper in solution attracts to it the invisible copper in that solution. Every thought of yours has a literal value to you in every possible way. In whatever mood you set your mind does your spirit receive of unseen substance in correspondence with that mood."

QUEZON SAYS PHILIPPINES SHOULD BE FREE

Philippine Commissioner, in a Speech, Advocates Freedom of His People.

(BY ASSOCIATED PRESS)
CLEVELAND, April 16.—Independence of the Philippines was strongly advocated by Manuel L. Quezon, one of the Philippine commissioners at Washington, in an address before the Cleveland Chamber of Industry here.

"The duty of the United States to the Philippines, is plain," said Mr. Quezon. "Congress should enact law giving the Philippines their independence. The reasons are these:

This Country's Promise.
"This country has promised, both expressly and by implication, to withdraw its sovereignty from the Philippine islands. By implication, when upon the declaration of war between the United States and Spain the government of the United States asserted that it was not waging for territorial aggrandizement or commercial expansion; expressly, in that the past Republican and the present Democratic administration have both declared it to be the policy of the United States to give the Filipino people their independence when they can establish and maintain a government of their own, competent to discharge its obligations both domestic and foreign."

Time is Important.
Referring to the time when independence should take effect, Mr. Quezon said:

"The question of time is all important. Those who promise an independence to be granted when you and I and our sons and grandsons are all dead and buried are either insincere and too shrewd to disclose to the American people the real purpose which underlies their protestations, or if they are honest they have been fooled. What would that promise amount to, when you, who make it, shall not redeem it, and we, to whom the promise is made, shall not live to see it realized? Can you by your pledge bind generations yet unborn?"

Filipino Capacity.
As to Filipino capacity for independence Mr. Quezon said:

"The argument of Filipino incapacity for self-government is hypocritical. It is the veil with which the American office-holder covers his desire to keep his place. It is the am-bush behind which lurks the company which monopolizes our hemp, and the sugar interests which have already acquired in defiance of an act of Congress sixty-five thousand acres of land in one tract, and are ready to get more if given time and opportunity."

Concerning the present administration policy toward the islands, Mr. Quezon said:

"President Wilson has adopted a policy whereby the question can be settled in the only practical way. After reaffirming the oft-avowed policy that independence is the goal toward which you would move as rapidly as the safety and permanent interests of the people of the Philippines would permit, the president has appointed a majority of Filipinos in the upper both branches of our legislature so that we may fully show our legislative capacity. The governor general or the Philippines at the same time, in harmony with the policy of the president, is appointing administrative positions, responsible administrative positions. If, in this test, the Filipinos are successful, the speedy end of your occupation of the islands should come. If the Filipinos fail, there will be a halt, and, friends of colonialism may claim, at least, a temporary victory."

Tribute to Governor General.
Mr. Quezon paid a tribute to Governor General Harrison, and in conclusion said:

"Give the Filipinos their liberty and there will be nothing they will not gladly concede to you, their trade and their gratitude. America's flag may then cease to fly over our public buildings, but our influence will be our inspiration and we and our children will bless the day when Dewey landed the Bay of Manila."

VALUE OF SERVICE

EVERYBODY WHO DOES ANY BUSINESS, WHETHER IT BE WITH A BANK, A GROCERY STORE, AT THE RIBBON COUNTER, OR WITH THE COAL DEALER, IS LOOKING FOR SERVICE. HE WANTS COURTESY, HE LIKES A SMILE AND HE WILL COME AGAIN IF HE RECEIVES A FRIENDLY WORD OF APPRECIATION. THESE APPARENTLY LITTLE THINGS, COUNT FOR MORE THAN MOST PEOPLE THINK. THIS BANK PROMISES YOU THESE LITTLE ACTS OF SERVICE THAT WILL MAKE YOU WANT TO CALL OFTEN.

WATER

In the Amount of 600,000 Gallons Annually May Be Purchased by B. & O.

FAIRMONT, April 15.—If a satisfactory price can be arranged between the Baltimore and Ohio Railroad Company and the city of Fairmont the company will make an agreement to use approximately 600,000 gallons of city water daily. The city water commissioner is in receipt of a communication asking what rate would be made to them for this amount of water and saying that they would begin to use it about May 15 if arrangements can be perfected.

If the contract is made, which is quite probable, about 350,000 gallons or one-half of the water will be used at the local round house while the other half will be used for the purpose of supplying the company's engines with water at the reservoir near the depot. At the present time the engines are watered at Clarksburg but the company claims that the water is not suitable for engines, as it contains some substance which eats holes in the boilers.

Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Thedford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Thedford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

THEDFORD'S BLACK-DRAUGHT

in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Thedford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.
